

Proxy Advisory Firm ISS Recommends Vote “FOR” the Charter Amendment Proposal – To Increase the Number of Authorized Shares of Common Stock

May 20, 2022

MAYNARD, Mass., May 20, 2022 (GLOBE NEWSWIRE) -- AquaBounty Technologies, Inc. (NASDAQ: AQB) (“AquaBounty” or the “Company”), a land-based aquaculture company utilizing technology to enhance productivity and sustainability, today announced that leading proxy advisory firm Institutional Shareholder Services Inc. (ISS), in addition to the Company’s Board of Directors and proxy advisory firm Glass Lewis, has recommended that the Company’s stockholders vote in favor of the proposal to amend the Company’s Third Amended and Restated Certificate of Incorporation, as amended, to increase the number of authorized shares of the Company’s common stock, \$0.001 par value per share, from 80,000,000 to 150,000,000 at the upcoming adjourned annual meeting of stockholders to be held on May 27, 2022 (“Annual Meeting”).

The Company has previously communicated to its stockholders the importance of this year’s proposals and their potential impact on the Company in its definitive proxy statement filed with the U.S. Securities and Exchange Commission on April 14, 2022.

The adjourned Annual Meeting will resume as a virtual meeting held via live webcast on the Internet on May 27, 2022, at 8:30 AM (Eastern Time) at www.meetnow.global/MC57T9H. The record date for determining stockholders eligible to vote at the Annual Meeting will remain the close of business on March 30, 2022. Proxies previously submitted with respect to the Annual Meeting will be voted on all proposals at the adjourned Annual Meeting unless properly revoked, and stockholders who have previously submitted a proxy or otherwise voted need not take any action.

The Company encourages all stockholders of record as of March 30, 2022 who have not yet voted to do so by 8:30 AM, Eastern Time, on May 27, 2022. If you have questions or need assistance voting your shares, please contact:

About AquaBounty

At AquaBounty Technologies, Inc. (NASDAQ: AQB), we believe we are a leader in land-based aquaculture leveraging decades of technology expertise to deliver disruptive solutions that address food insecurity and climate change issues. We are committed to feeding the world efficiently, sustainably and profitably. AquaBounty provides fresh Atlantic salmon to nearby markets by raising its fish in carefully monitored land-based fish farms through a safe, secure and sustainable process. The Company’s land-based Recirculating Aquaculture System (“RAS”) farms, located in Indiana, United States and Prince Edward Island, Canada, are close to key consumption markets and are designed to prevent disease and to include multiple levels of fish containment to protect wild fish populations. AquaBounty is raising nutritious salmon that is free of antibiotics and contaminants and provides a solution resulting in a reduced carbon footprint and no risk of pollution to marine ecosystems as compared to traditional sea-cage farming.
