

AquaBounty Technologies, Inc. Announces Second Quarter 2022 Financial Results

August 9, 2022

MAYNARD, Mass., Aug. 09, 2022 (GLOBE NEWSWIRE) -- AquaBounty Technologies, Inc. (NASDAQ: AQB) ("AquaBounty" or the "Company"), a land-based aquaculture company utilizing technology to enhance productivity and sustainability, today announced the Company's financial results for the second quarter ended June 30, 2022.

Second Quarter 2022 Highlights and Recent Developments

- Generated \$1.1 million in product revenue in the second quarter, a year-over-year increase of 371% as compared to \$227 thousand in the second quarter of 2021.
- Net loss in the second quarter totaled \$5.5 million, as compared to \$5.2 million in the second quarter of 2021.
- Construction activities for the Pioneer, Ohio farm site are well underway and now focused on underground piping.
- Cash, cash equivalents, marketable securities and restricted cash totaled \$149.2 million as of June 30, 2022, as compared to \$191.2 million as of December 31, 2021.

Management Commentary

"Our genetically engineered Atlantic salmon saw continued market validation from seafood distributors in the quarter, with strong demand continuing for the entire output of our Indiana farm," said Sylvia Wulf, Chief Executive Officer of AquaBounty. "This robust demand, combined with improvements in our sales yields and higher market prices, drove an 11% sequential increase in second quarter revenues to \$1.1 million. As we ramp production at our Indiana facility, we will continue to utilize the farm as an opportunity to refine our production and harvest methods through the application of technology and process improvements – a critical learning experience ahead of our Ohio farm.

"Construction progress on our next-generation farm in Pioneer, Ohio is advancing. After the groundbreaking ceremony in late April, work commenced on initial pre-construction activities including the construction of roadways, on-site energy infrastructure and land preparation. With that work largely complete, we are now focused on excavating the ground site and laying the piping that will provide fresh water to our fish tanks.

"On the bond financing front, we have decided to slow the process down temporarily in order to evaluate the current economic forces that are driving both inflation and interest rates higher. Since our estimate for construction of the farm currently exceeds our previous range of \$290 - \$320 million, we will review all options for reducing cost, including potentially phasing the construction of the 10,000 metric ton farm with an initial production output level that would demonstrate our competitive advantage and ability to operate at commercial scale. We believe this is a prudent move and it will allow us to re-estimate remaining construction costs and thus avoid locking in contracts, commodity pricing for materials or interest rates at what may be their peak. We currently expect to resume our bond financing efforts with Wells Fargo Corporate and Investment Banking and the issuance of additional construction sub-contracts, once we have completed our evaluation of the project scope, relevant economic trends and market costs. However, construction on the farm will continue during this period and we are targeting to close the bond financing by year-end.

"As we look to the second half of 2022, we are operating from a strong position. Our GE Atlantic salmon continues to receive market validation, the scale-up of harvests and sales at our Indiana facility is well underway, and construction continues at the Ohio farm – all supported by our fortified balance sheet. We are committed to bringing a high-volume of fresh, sustainable Atlantic salmon to the market and look forward to continued execution and foundation building in the months ahead as we strive to build long-term value for our shareholders," concluded Wulf.

About AquaBounty

At AquaBounty Technologies, Inc. (NASDAQ: AQB), we believe we are a leader in land-based aquaculture leveraging decades of technology expertise to deliver disruptive solutions that address food insecurity and climate change issues. We are committed to feeding the world efficiently, sustainably and profitably. AquaBounty provides fresh Atlantic salmon to nearby markets by raising its fish in carefully monitored land-based fish farms through a safe, secure and sustainable process. The Company's land-based Recirculating Aquaculture System ("RAS") farms, located in Indiana, United States and Prince Edward Island, Canada, are close to key consumption markets and are designed to prevent disease and to include multiple levels of fish containment to protect wild fish populations. AquaBounty is raising nutritious salmon that is free of antibiotics and contaminants and provides a solution resulting in a reduced carbon footprint and no risk of pollution to marine ecosystems as compared to traditional sea-cage farming. Forward-Looking Statements

This press release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995, as amended, including regarding the anticipated size of AquaBounty's proposed facility in Ohio; production capacity; timing of construction, permits, regulatory approvals, or commercial stocking; cost of construction; ability to scale commercial production; the timing of the contemplated bond financing; future revenue streams; onboarding customers, pricing and profitability; customer sentiment; and technological capabilities. The forward-looking statements in this press release are neither promises nor guarantees, and you should not place undue reliance on these statements because they involve significant risks and uncertainties about AquaBounty. AquaBounty may use words such as "expect," "anticipate," "project," "intend," "slated to," "plan," "aim,"

“believe,” “seek,” “estimate,” “can,” “focus,” “will,” “may,” the negative forms of these words and similar expressions to identify such forward-looking statements. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are risks relating to, among other things, whether AquaBounty will be able to secure required regulatory approvals and permits; be able to profitably construct and operate the Pioneer, Ohio farm; be able to operate its Albany, Indiana and Prince Edward Island farms; AquaBounty’s business and financial condition; and the impact of general economic, public health, industry or political conditions in the United States and internationally. Forward-looking statements speak only as of the date hereof, and, except as required by law, AquaBounty undertakes no obligation to update or revise these forward-looking statements. For additional information regarding these and other risks faced by us, please refer to our public filings with the Securities and Exchange Commission (“SEC”), available on the Investors section of our website at www.aquabounty.com and on the SEC’s website at www.sec.gov.

This press release does not constitute an offer to sell or a solicitation of an offer to buy the bonds described herein, nor shall there be any sale of these bonds in any state or jurisdiction in which such offer, solicitation or sale would be unlawful.
